PROFILE

Computer Science engineer and master's student in IT in Business at Warsaw University of Technology, with hands-on experience in IT support and administration, software development and data work, including a Risk Advisory internship at Deloitte. Years of tutoring and client work as a financial advisor taught me to explain technical topics plainly, stay calm under time pressure and understand what people actually need. I learn new tools quickly and work well on my own or in a team.

SKILLS

IT support & administration: Active Directory (users, groups, domain objects); Office 365 administration (mailboxes, SharePoint, licences); installing, supporting and troubleshooting Windows; repairing laptops, desktops, printers, peripherals and mobile devices; networking basics

Service management: ServiceNow and other ITSM tools; ITIL-style ticket triage, SLAs and escalation; documentation, inventory and back-ups

Software development: Python, Java (Spring Boot), PHP (Laravel), C#, JavaScript/React, HTML/CSS, Android, Firebase, Git

Data & AI: SQL databases, data analysis and data quality, SAP, Excel, machine learning (reinforcement learning, Unity ML-Agents)

EXPERIENCE

Financial Advisor | **inPartners** *2026 – present*
- Advise clients on insurance, loans and investment products, matching options to each client's situation.
- Analyse client needs and explain financial products in clear, plain language.

Risk Advisory Intern | **Deloitte** *Dec 2025 – May 2026*
- Analysed data across several database systems and supported database migrations for risk-management work.
- Checked data quality and supported data integration in line with the company's compliance standards.
- Worked with SAP, ServiceNow and Excel; prepared reports for the analytics teams and kept documentation in order.

Maths & Computer Science Tutor | **Dobre Korepetycje (since 2025), GoStudent** *Aug 2022 – present*
- Teach maths and computer science one-to-one online to primary and secondary school students.
- Manage my own schedule, prepare individual materials and adapt explanations to each student until the idea clicks.

Software Development Intern | **Simplicity Games** *Oct – Nov 2023*
- Helped design, test and optimise desktop and mobile games; implemented gameplay logic in a team.

EDUCATION

MSc, Computer Science – specialisation: IT in Business | **Warsaw University of Technology** *2025 – present*

Engineer's Degree, Computer Science (year representative) | **University of Rzeszów** *2021 – 2025*

IT Technician (Technical Secondary) | **School of Electrical & Electronic Engineering, Krosno** *2017 – 2021*

CERTIFICATIONS & COURSES

- EE.08 and EE.09 (Polish vocational qualifications) – computer systems, peripherals and networks; websites and databases.
- "Skills of Tomorrow: AI" (Google & SGH Warsaw School of Economics, 2025) – AI for data analysis and process automation.

PROJECTS

- **Engineering thesis:** board game built in Unity (C#) with a reinforcement-learning agent (PPO) that beats human players.
- **Task manager for architecture firms:** Spring Boot web app with an Electron desktop version and PDF reports.
- **Museum & monuments forum:** Laravel app with photos, ratings, comments and location search.

LANGUAGES & INTERESTS
